

## Two Joint Commission National Conferences For Behavioral Health Care

### PREVENTION OF PATIENT AND RESIDENT SUICIDES Chicago, IL • September 23, 2004 • Chicago Hilton Hotel

The most frequently reported sentinel event to the Joint Commission on Accreditation of Healthcare Organizations is the death by suicide of a patient or resident in a health care setting. This one-day conference will present the lessons learned from these tragic events, research that can help you better recognize and treat individuals who are most likely to be suicidal, and steps that organizations can take to prevent such occurrences. Presentations and panel discussions will address other key issues, including the Joint Commission initiative to reduce suicide, the Healthy People 2010 initiatives, and the role HIPAA plays in disclosing patient-related, suicide-linked information.

**\$360 PER REGISTRANT**

**PROGRAM FEE:**

### NATIONAL CONFERENCE ON BEHAVIORAL HEALTH CARE: A FOCUS ON OUTCOMES RESEARCH AND THE USE OF DATA Chicago, IL • September 24-25, 2004 • Chicago Hilton Hotel

A faculty of leading behavioral health care outcomes researchers will address the efficacy of behavioral health care treatment and the challenges associated with the gaps in the mental health system. At this two-day conference, behavioral health care outcomes research from a number of unique perspectives will be presented to a diverse audience of stakeholders in an attempt to bridge the gap between research and practice. This conference is a unique opportunity for stakeholders—researchers, clinicians, provider organizations, payers, consumer advocacy groups, individual consumers and their families—to share information related to behavioral health care treatment resources, to stimulate ideas for improving treatment outcomes and to work together to improve the quality of behavioral health care.

**REGISTRANT**

**PROGRAM FEE: \$300 PER**
